A 11. SWEDEN IS ENLARGING THE IMPLEMENTATION OF FREE ROUTE AIRSPACE - FRA

Cancels AIC A 17/2008

Sweden will extend the trial of Free Route Airspace in Sweden UIR , from current area north of latitude 61 degrees (*ref AIP AIRAC SUP 3/2009*) to also embrace Sweden UIR south of this latitude on **6th May 2010**.

Aircraft operators flying above FL285 in Sweden UIR will have a choice for optimum route selection in Sweden UIR and will be eligible to flight plan direct routes between entry/exit points with intermediate points if required. Entry/exit points will be published in AIP Sweden. The ATS Route Network will be retained for those flights that are not eligible or do not intend to flight plan direct routes.

Eligible flights will be over-flight operations that enter and exit Sweden UIR above FL285. Flights departing or arriving within Sweden FIR (or in its proximity) will not be eligible.
